

Golden Field Lite AI

Cross-discipline AI Expert Research Partner

A high-coherence AI Expert layer for transformer, quantum, math, biology, biosignal, environmental, and materials lanes with evidence memory and

NEMOTRON + HERMES PARALLEL

NEST SUPPORT LANES

DGX SPARK VALIDATION

AI EXPERT MEMORY

Current lanes: Nemotron/Nemo, ChEBI closure, cells, metabolism, nutrients

Parallel target: Hermes/Nous baseline against the NVIDIA proof lane

Compute need: local models for hidden-state read, reruns, and tuning

NEMO
Nemotron proof lane

NEST
real data controls

MATH
M23 / lattice / 668

BIO
allostery / signals

One research backbone

Local checkpoints, rerun controls, domain tools, evidence memory, and tuned expert surfaces for Sovereign Edge install.
